## ORDER

The petition has been filed for approval of tariff for LILO of 220 kV S/C Panki-Naubasta transmission line (the transmission line) in Northern Region for the period 1.4.2009 to 31.3.2014, based on the Central Electricity Regulatory Commission (Terms and Conditions of Tariff) Regulations, 2009 (hereinafter referred to as "the 2009 regulations"). The petitioner has further prayed for the reimbursement of expenditure from the beneficiaries towards publication of notices in newspapers and petition filing fee be approved. The petitioner has made the following additional prayers:-

- (a) To invoke the provision of Regulation 44 of the 2009 regulations for relaxation of regulations 15 (3) of the 2009 regulations so that grossing up the base rate shall be considering the revised rate of MAT as per the Finance Act, 2009 for the year 2009-10 and as per the Finance Act, 2010 for the year 2010-11 and subsequent years and allow consequential impact on tariff for 2009-14 period accordingly;
- (b) To approve reimbursement of petition filing fee and publication of notices in the newspaper as per the 2009 regulations;
- (c) Allow to recover the service tax on transmission charges separately from the respondents, if the petitioner is subjected to such service tax; and
- (d) Allow reimbursement of licence fee separately from the respondents.

2. The revised approval for the cost estimate of ₹135.15 crore, including IDC of ₹11.93 crore for the Unchahar Transmission System was accorded by the Central Government in Ministry of Power vide letter dated 31.7.2001.

3. The annual transmission charges including additional capital expenditure for the period from 1.4.2004 to 31.3.2005 were determined by the Commission in its order dated 22.1.2007 in I.A.No. 1/2007 in Petition No. 102/2005 at a gross block of ₹814.05 lakh as on 31.3.2009.

4. The petitioner has claimed the transmission charges as under:

6. No comments or suggestions have been received from the general public in response to the notices published by the petitioner under section 64 of the Electricity Act, 2003.

7. Uttar Pradesh Power Corporation Ltd. (UPPCL) has made following submission:

(i) In the absence of creation of any depreciation fund to meet the investment on future assets, depreciation of ₹42.75 lakh for the year 2011-12 to 2013-14 is an additional amount earned by the petitioner over and above the ROE. It has been suggested that a fund may be created for the excess amount left over as depreciation after adjusting the same in O & M expenses and the same may be ploughed into the capital cost of the new schemes so that the beneficiaries who have over paid now may reap the benefit of lower capital cost in future;

(ii) The figures of cumulative repayment of normative loan up to previous period in Form 13(A) are mismatched. The figures of interest on loan should be corrected by the petitioner;

(iii) The prayer in regard to wage revision w.e.f. 1.1.2007 is not tenable since the Commission vide its order dated 11.2.1010 in Petition No. 262/2009 decided that "the base norms at 2007 price level is escalated at 5.72% per annum to reach to 2009-10 price level. It is estimated that 55% of the sub-station O & M expenditure , 52% of the line O & M expenditure and 30% of the HVDC station O & M expenditure is on account t of employee cost. Wage hike of 50% has been applied accordingly in the norms for O & M expenditure.

(iv) Licence fee being the onus of the licensee, it should not be passed over to the beneficiaries. Uttar Pradesh Power Corporation Ltd. (UPPCL) in its reply has raised the issue of MAT, depreciation, wages revision, service tax, filing fee and licence fee etc.

8. Haryana Power Purchase Centre (HPCC) in its reply dated 22.7.2010 has submitted that capital cost approved by the Commission and claimed by the petitioner is mismatched. The capital cost of ₹805.87 lakh need to be taken for determination of tariff. The petitioner has claimed higher O & M expenses which are not in accordance with 2009 regulations.

9. We have considered the objections of UPPCL and HPCC. The tariff of the transmission system including treatment of depreciation has been determined in this order strictly in accordance with the provisions of the 2009 regulations. In regard to capital cost, the capital cost of ₹814.05 lakh already approved vide order dated 22.1.2007 in I.A.No. 1/2007 in Petition No. 102/2005 has been considered for determination of tariff. As regards the reimbursement of licence fee, a view in the matter is yet to taken by the Commission. As regards the MAT rate and service tax, the same has been dealt with in later part of the order.

### **CAPITAL COST**

10. As per clause (2) of Regulation 7 of the 2009 regulations, the project cost admitted by the Commission for determination of tariff prior to 1.4.2009 shall form the basis for determination of tariff.

11. The petitioner has claimed the capital expenditure of ₹814.05 lakh, which was admitted vide order dated 22.1.2007 in I.A.No. 1/2007 in Petition No. 102/2005. The petitioner has not claimed any additional capitalization.

12. Accordingly, gross block of ₹814.05 lakh as on 31.3.2009 has been considered for the purpose of tariff.

### **DEBT- EQUITY RATIO**

13. Clause (2) of Regulation 12 of the 2009 regulations *inter alia* provides that,-

“(2) In case of the generating station and the transmission system declared under commercial operation prior to 1.4.2009, debt-equity ratio allowed by the Commission for determination of tariff for the period ending 31.3.2009 shall be considered.”

14. The petitioner has claimed tariff based on debt-equity ratio of 22.78:77.22 as admitted on 31.3.2009. The same debt-equity ratio has been considered for the purpose of tariff.

### **RETURN ON EQUITY**

15. Regulation 15 of the 2009 regulations provides that,-

“15. (1) Return on equity shall be computed in rupee terms, on the equity base determined in accordance with regulation 12.

(2) Return on equity shall be computed on pre-tax basis at the base rate of 15.5% to be grossed up as per clause (3) of this regulation:

Provided that in case of projects commissioned on or after 1st April, 2009, an additional return of 0.5% shall be allowed if such projects are completed within the timeline specified in ***Appendix-II***:

Provided further that the additional return of 0.5% shall not be admissible if the project is not completed within the timeline specified above for reasons whatsoever.

(3) The rate of return on equity shall be computed by grossing up the base rate with the normal tax rate for the year 2008-09 applicable to the concerned generating company or the transmission licensee, as the case may be:

Provided that return on equity with respect to the actual tax rate applicable to the generating company or the transmission licensee, as the case may be, in line with the provisions of the relevant Finance Acts of the respective year during the tariff period shall be trued up separately for each year of the tariff period along with the tariff petition filed for the next tariff period.

(4) Rate of return on equity shall be rounded off to three decimal points and be computed as per the formula given below:

Rate of pre-tax return on equity = Base rate / (1-t)

Where t is the applicable tax rate in accordance with clause (3) of this regulation.

**Illustration.-**

(i) In case of the generating company or the transmission licensee paying Minimum Alternate Tax (MAT) @ 11.33% including surcharge and cess:

Rate of return on equity =  $15.50 / (1 - 0.1133) = 17.481\%$

(ii) In case of generating company or the transmission licensee paying normal corporate tax @ 33.99% including surcharge and cess:

Rate of return on equity =  $15.50 / (1 - 0.3399) = 23.481\%$ ."

16. The petitioner has computed return on equity on pre-tax basis on 11.33% MAT in accordance with tax rate applicable for the year 2008-09 and claimed return on equity of ₹109.88 lakh each year during the tariff period @ 17.481% against the equity base of ₹628.59 lakh. This has been found to be in order. Accordingly, the petitioner shall be entitled to return on equity @ ₹109.88 lakh each year during the tariff period, as claimed.

17. The Commission vide its order dated 3.8.2010 in Petition No. 17/2010 has already taken a decision to amend the 2009 regulations and directed the staff to initiate the process accordingly. The draft regulations have already been published. The Commission is in the process of finalizing the amendment to 2009

regulations after considering the responses to the draft amendments. It is however, clarified that the existing provision of the 2009 regulation will be applicable with regard to the MAT rate till the regulations are amended.
