

CENTRAL ELECTRICITY REGULATORY COMMISSION
Ground Floor, Chanderlok Building,
36, Janpath, New Delhi - 110 001

No. 2/23(13)/2014/Adm /CERC

Dated, the 16 Aug 2014

Subject: **“Engagement of Individual Consultant in the
Power Market Sector”**

1.0 Background:-

1.1 Since the enactment of the Electricity Act 2003 the power sector has undergone major structural changes. The Act is based on the philosophy that consumers should benefit from growth of competitive markets. The Act has de-licensed generation, encouraged captive power by allowing them to sell almost half of the generation without any license requirements. Multiple players are required for competitive markets. This is done by allowing multiple licensees in the same area and also allowing 'Open Access'. The trading platform of Exchanges has already been started. Traders are also in existence in the power market.

1.2 Following are the statutory functions of CERC:

- (a) To regulate the tariff of generating companies owned or controlled by the Central Government;
- (b) To regulate the tariff of generating companies other than those owned or controlled by the Central Government specified in clause (a), if such generating companies enter into or otherwise have a composite scheme for generation and sale of electricity in more than one State;
- (c) To regulate the inter-State transmission of electricity ;
- (d) To determine tariff for inter-State transmission of electricity;
- (e) To issue licenses to persons to function as transmission Licensee and electricity trader with respect to their inter-State operations;
- (f) To adjudicate upon disputes involving generating companies or transmission licensee in regard to matters connected with clauses (a) to (d) above and to refer any dispute for arbitration;
- (g) To levy fees for the purposes of this Act;
- (h) To specify Grid Code having regard to Grid Standards;
- (i) To specify and enforce the standards with respect to quality, continuity and reliability of service by licensees;
- (j) To fix the trading margin in the inter-State trading of electricity, if considered, necessary;

(k) To discharge such other functions as may be assigned under this Act.

1.3 Under section 66 of the Electricity Act, CERC has been mandated to take steps for promoting the development of market (including trading) in power taking into account the National Electricity Policy. Under section 60 of the Act, CERC has also powers to deal with situations of market domination. It can issue appropriate directions to a licensee or a generating company if such an entity enters into any agreement or abuses its dominant position or enters into a combination which is likely to cause or causes an adverse effect on competition in electricity industry.

1.4 The Act has also given advisory role to CERC. It has been mandated to advise the Central Government on the matters relating to formulation of National Electricity Policy and Tariff Policy, promotion of competition, efficiency and economy in activities of the electricity industry, and promotion of investment in electricity industry.

1.5 Power sector is evolving in India and the present policy approach mainly aims at moving from cost plus tariff to competitive bidding based tariff, appropriate regulatory framework for mobilizing investments, and developing electricity markets.

1.6 In view of the above activities, Central Electricity Regulatory Commission proposes to engage one Individual Consultant in the capacity of Senior Advisor (Power Market). The detailed Terms of Reference containing the essential qualifications/ experience, duties and responsibilities and process of selection are given below:-
