7. The petitioner has claimed the date of the commercial operation for Assets-I, II, III, IV, Va and Vb as 1.4.2014, 1.4.2014, 1.4.2014, 18.4.2014, 30.7.2014 and

- 31.7.2014 respectively. Regulation 4(3) of the 2014 Tariff Regulations provides as follows:-
 - **"4. Date of Commercial Operation:** The date of commercial operation of a generating station or unit or block thereof or a transmission system or element thereof shall be determined as under:

XXX

(3) Date of commercial operation in relation to a transmission system shall mean the date declared by the transmission licensee from 0000 hour of which an element of the transmission system is in regular service after successful trial operation for transmitting electricity and communication signal from sending end to receiving end:

XXX"

8. The petitioner has submitted the approval of CEA for energisation of the Asset-I, Asset-II and Asset-III in accordance with Regulation 43 of CEA (Measures relating to Safety and Electric Supply), Regulations, 2010. The petitioner has also submitted RLDC certificate issued by WRLDC, POSOCO vide letter dated 12.4.2016 in support of the claim of commercial operation in accordance with Regulation 5(2) of the 2014 Tariff Regulations indicating completion of successful trial operation for Asset-IV, Asset-Va and Asset-Vb. The petitioner has not submitted the RLDC certificate in case of Assets-I, II and III, though they were commissioned on 1.4.2014. As Assets-I, II and III were commissioned on 1.4.2014, 2014 Tariff Regulations are applicable in case of these assets. As such, it is mandatory for the petitioner to submit a certificate from the Regional Load Despatch Centre as provided under Regulation 5(2) of the 2014 Tariff Regulations. The date of commercial operation of Assets-I, II and III is provisionally approved as 1.4.2014 and the petitioner is directed to submit

the certificate issued by Regional Load Despatch Centre as provided under Regulation 5(2) of the 2014 Tariff Regulations at the time of truing up.

- 9. Accordingly, the commercial operation date of the transmission asset has been considered as under:
 - a) The COD of the Asset-I, Asset-II and Asset-III have been provisionally considered as 1.4.2014;
 - b) The COD of Asset-IV is declared as 18.4.2014;
 - c) The COD of Asset-Va and Asset-Vb is declared as 30.7.2014 and 31.7.2014 respectively. The petitioner has combined Asset-Va with Asset-Vb w.e.f. 31.7.2014 i.e. the COD of Asset-Vb.
- 10. The petitioner submitted that Asset-V has been split into two parts for the tariff purpose based on the date of commissioning i.e. Asset Va on 30.7.2014 and Asset-Vb on 31.7.2014. It is observed that the petitioner has not placed any documents on record to show that the splitting of asset has been discussed with the beneficiaries and that the beneficiaries have been apprised about the segregated tariff of the assets. We are of the considered view that the petitioner should notify the beneficiaries about such changes. The splitting of the instant asset on the basis of date of commercial operation is allowed in the instant case, however, the petitioner is directed to follow a practice to inform the beneficiaries about such splitting of assets.

Capital Cost

- 11. The petitioner has submitted revised the capital cost as on COD vide affidavit dated 12.4.2016 along with the revised tariff forms. The petitioner has also submitted the Auditor's Certificate certifying the capital cost claimed.
- 12. Regulation 9 (1), 9(2) and 10 (1) of the 2014 Tariff Regulations with regard to capital cost of the project provides as follows:-
 - **"9. Capital Cost:** (1) The Capital cost as determined by the Commission after prudence check in accordance with this regulation shall form the basis of determination of tariff for existing and new projects.
 - (2) The Capital Cost of a new project shall include the following:
 - a) the expenditure incurred or projected to be incurred up to the date of commercial operation of the project;
 - b) Interest during construction and financing charges, on the loans (i) being equal to 70% of the funds deployed, in the event of the actual equity in excess of 30% of the funds deployed, by treating the excess equity as normative loan, or (ii) being equal to the actual amount of loan in the event of the actual equity less than 30% of the funds deployed;
 - c) Increase in cost in contract packages as approved by the Commission;
 - d) Interest during construction and incidental expenditure during construction as computed in accordance with Regulation 11 of these regulations;
 - e) capitalised Initial spares subject to the ceiling rates specified in Regulation 13 of these regulations;
 - expenditure on account of additional capitalization and de-capitalisation determined in accordance with Regulation 14 of these regulations;
 - g) adjustment of revenue due to sale of infirm power in excess of fuel cost prior to the COD as specified under Regulation 18 of these regulations; and
 - h) adjustment of any revenue earned by the transmission licensee by using the assets before COD."
 - **"10. Prudence Check of Capital Expenditure:** The following principles shall be adopted for prudence check of capital cost of the existing or new projects:
 - (1) In case of the thermal generating station and the transmission system, prudence check of capital cost may be carried out taking into consideration the benchmark norms specified/to be specified by the Commission from time to time: Provided that in cases where benchmark norms have not been specified, prudence check may include scrutiny of the capital expenditure, financing plan, interest during construction, incidental expenditure during construction for its reasonableness, use of efficient technology, cost over-run and time over-run, competitive bidding for procurement and such other matters as may be considered appropriate by the Commission for determination of tariff:"

Time Over-run

13. As per the investment approval, the commissioning schedule of the project was 36 months from the date of investment approval. The investment approval was accorded on 15.12.2010 and the schedule date of commercial operation was 15.12.2013. The COD for Asset-I, II, III, IV, Va and Vb is 1.4.2014, 1.4.2014, 1.4.2014, 18.4.2014, 30.7.2014 and 31.7.2014 respectively, therefore, there is time over-run of 3 months and 17 days in case of Asset-I, Asset-II and Asset-III. There is time over-run of 4 months and 4 days in case of Asset-IV. Further, there is time over-run of 7 months and 16 days in case of Asset-Va and 7 months and 17 days in case of Asset-Va and 8 months and 18 days in case of Asset-Va and 9 months and 19 days in case of A

Asset-I

Delay in delivery of consignments

- 14. The prime reason for delay for Asset-I is due to withholding of the Consignments with heavy loads at mid-way till completion of the survey. The chronology of events submitted by the petitioner is as below:-
 - (a) ICTs were dispatched in the month of August, 2013 from Vadodara.
 - (b) As per directive of Ministry of Road transport & Highways, survey of several structures like bridges, tunnels etc. on national Highway was going on to ascertain load carrying capacity. Consignments with heavy loads were with held mid way till completion of the survey.

- (c) Authorities refused to allow the movement of consignment (ICTs) via Karjan, therefore the bank had to be diverted to an alternate route via Vadodara-Dahod-Jhabua-Indore-Bhopal-Jabalpur.
- (d) After considerable travel on this route i.e. up to Dahod, it was learnt that the road ahead has got damaged due to heavy rain. Hence, in the month of October, 2013, ICT bank again came back to the works in Vadodara.
- (e) Meanwhile clearance for the movement of heavy vehicle was granted by ministry on 30.9.2013, to reach Jabalpur finally in March 2014.
- 15. The circular of Ministry of Road Transport & Highways for further streamlining the process of grant of permission for movement of over weight and over dimensional consignments (OWCs/ODCs) was issued on 16.9.2013. It was brought into the notice of Ministry of Road Transport & Highways that several consignments are withheld in want of survey report of critical structures like bridges, tunnels etc. on the National Highways. The Ministry in order to prevent delay in grant of permission for movement of OWCs/ODCs on the National Highway, decided on 30.9.2013 that the implementation of circular dated 16.9.2013 be kept in abeyance until completion of survey and examination by the Ministry. Further, the survey work e.t.c are time bound job and the concerned transportation agency should have made aware themselves about these details. The petitioner's transportation agency should have taken care to coordinate with authority before taking the alternate route. Further, it is observed that before

taking the alternate route, the petitioner has not done the proper analysis of the road condition which was got damaged due to rain. It is also not clear that why the ICT bank came back to works in Vadodara in October, 2013 from Dahod. As per the documents paced on record by the petitioner, it is evident that there was a restriction by Government instrumentality on movement of heavy load vehicle due to survey work. However, it is observed that if due care has been taken by the transportation agency, the further delay could have been avoided. We are of the view that the delay due to restriction imposed by the Government instrumentality is to be condoned. The delay on account of taking alternate route was due to improper planning and co-ordination by the transportation agency and therefore we are not fully convinced with the reasons given by the petitioner for time-over run of two months. Accordingly, the delay of 2 months for taking alternate route, transportation back to manufacturer site etc is disallowed and balance time of 1 months and 17 days for Asset-I is condoned.

Asset-II

Line Reactor commissioned as bus reactor

16. The petitioner submitted that commissioning of the Asset-II got delayed due to non-approval of forest proposal, hence, the line reactors have been commissioned as bus reactors as interim contingency arrangement. To maintain the voltage profile at Jabalpur PS, line reactor for Jabalpur-Dharamjaigarh at Jabalpur has been charged as Bus reactor as per the in-principle approval from CEA for commissioning of 765 kV, 240 MVAR Line Reactors as Bus Reactor in Western Region. The petitioner has also submitted the CEA in-principle approval

letter. We observe that the delay is on account of uncontrollable factor and therefore we condone the entire time over-run of 3 months and 17 days for Asset-II.

Asset-III & Asset-IV

Delay due to non availability of energisation source

17. The petitioner has submitted that Dharamjaigarh Sub-station (near Korba) is a Green-field Sub-station which required at least one energisation source for its charging. For this Sub-station, the option for voltage source were either through LILO of 765 kV Ranchi-Sipat T/L under DVC, or 765kV D/C Jharsuguda-Dharamjaigarh transmission or 765 kV Dharamjaigarh-Jabalpur transmission line. However all the above transmission lines (including 765 kV Ranchi-Sipat S/C under DVC /RB project) were passing through considerable forest area and the first line to be energized was 765 kV S/C Ranchi Sipat only on 31.03.2014. Accordingly along with the the 765 kV Ranch-Sipat line under DVC, the instant element, namely LILO of 765 kV Ranch-Sipat transmission line and 765 kV Bus Reactor also got charged on 31.3.2014, and taken under regular operation w.e.f. 1.4.2014. In addition to this, delay of 17 days in the commissioning of the Asset-IV is mainly due to phased manner charging of various elements one by one, as the charging of all elements in one go is normally to be avoided and the Reactor was taken into service once the system got established after charging of previous elements. From the petitioners submission, it is observed that petitioner has not done proper planning and coordinateion. The petitioner should have envisaged this situation and must have raised this issue with some appropriate authority or in Standing Committee meeting or Regional Power Committee meeting. It is noticed that the petitioner's effort to make some alternate arrangement for energisation is missing. Accordingly, we are not impressed to condone the entire time over-run of 3 months and 17 days for Asset-I and 4 months and 4 days for Asset-IV.

Asset-Va & Asset-Vb

Rerouting due to encountering of Coal Blocks:

18. The petitioner submitted that immediately after Investment approval contract was awarded for construction of this Transmission Line within a month's time i.e. on 18.1.2011 and construction activities were taken on top priority on most feasible route. However, during construction phase, Ministry of Coal intimated that the instant line under consideration was passing through Gare Palma Coal block and was required to be rerouted. A first communication in this regard was received from Secretary Coal dated 8.5.2012. Subsequently a detailed exercise with Coal Ministry/ CMPDI/ with help of CEA was carried out. After various rounds of discussion and survey and field inspection another route was finalized in association with Coal ministry /CMPDI/CEA. Accordingly, in August, 2012, in principle decision for alternate route was worked out.

Forest Approval for Ministry of Environment and Forest

19. Further, after change of route to avoid the coal blocks/forest areas, the detailed survey of forest was again carried out and forest proposal was prepared with following major milestones:-

Finalization of diverted Route with resurvey : August, 2012
 Forest Involvement : 130.792 Ha

• Forest Range involved (3 Nos.) : Korba, Raigarh and

Dharamjaygarh

Proposal Submitted by POWERGRID to DFO 18.9.2012 Forest proposal forwarded to CF, Bilaspur 8.1.2013 Stage-I Approval by MoEF 19.8.2013 Demand note received from DFO, Raigarh 3.10.2013 Stage I compliance submitted to DFO, Raigarh: 19.10.2013 Stage –II approval 15.1.2014 Final Approval from State Govt 13.3.2014 Forest Area Tree Cutting Permission by Forest: 16.6.2014

20. After receiving of final approval for tree cutting on 16.6.2014 in forest area, tree cutting works were taken up along with mobilization of resources. It is observed that after receiving the first communication from Secretary Coal regarding the rerouting on 8.5.2012, the in principle decision for alternate route was worked out in Aug, 2012 i.e. it took around 4 months. Further, it is observed that forest proposal was submitted on 18.9.2012 and the sage-II was received on 15.1.2014 i.e. after a period of 16 months and then there is further delay in tree cutting permission in forest area. From the above submissions of the petitioner it is evident that delay is mainly on account of rerouting and delay in forest approval which is uncontrollable and cannot be attributable to the petitioner, therefore we condone the complete time over-run of 7 months and 16 days for

Cost over-run

21. The details of apportioned approved cost, capital cost as on date of commercial operation and estimated additional capital expenditure incurred or projected to be incurred for the instant asset covered in the petition are as under:-

Asset-Va and 7 months and 17 days for Asset-Vb.

22. Further, the petitioner has submitted that cost variation in case of Asset-V is due to increase in tower weight from 26873 MT to 31104 MT mainly on account of variation in tower unit weight after detailed design, increase in angle towers. Further, there was increase in entry tax in Chattisgarh from 1% to 5%. The petitioner has submitted that variation is also on account of actual award rate obtained. It is observed that the petitioner has exceeded the approved apportioned cost. The petitioner has submitted the RCE vide affidavit dated 11.3.2016. The estimated completion cost is within the revised approved apportioned cost. We have considered the reasons submitted for cost variation and taking into consideration the revised apportioned approved cost, the cost over-run in case of the instant assets is allowed.

In response to Commission's query regarding the amount of IDC discharged upto SCOD and from SCOD to actual COD, the petitioner submitted the details of IDC discharged during 2014-15 i.e. after COD. We have adjusted the amount of IDC discharged during 2014-15 from the capital cost as on COD and has considered it as part of additional capitalization during 2014-15. Further, we have also disallowed the IDC and IEDC for Asset-I, Asset-III and Asset-IV on account of time over-run not condoned.

It is observed that total estimated completion cost including the additional capitalization is within the approved apportioned cost for all the assets shown below. Accordingly, additional capitalization proposed by the petitioner is allowed under Regulation 14(1)(i) of 2014 Tariff Regulations. Further, the IDC discharged during 2014-15 has also been considered as additional capitalization for 2014-15. In case of multiple units of a generating station or multiple elements of transmission system, weighted average life for the generating station of the transmission system shall be applied. Depreciation shall be chargeable from the first year of commercial operation. In case of commercial operation of the asset for part of the year, depreciation shall be charged on pro rata basis"
- "(5) Depreciation shall be calculated annually based on Straight Line Method and at rates specified in Appendix-II to these regulations for the assets of the generating station and transmission system:

Provided that the remaining depreciable value as on 31st March of the year closing after a period of 12 years from the effective date of commercial operation of the station shall be spread over the balance useful life of the assets.

- (6) In case of the existing projects, the balance depreciable value as on 1.4.2014 shall be worked out by deducting the cumulative depreciation as admitted by the Commission upto 31.3.2014 from the gross depreciable value of the assets."
