

Chapter-III

Cross Border Trade of Electricity

1. Background

The Cross Border Trade of Electricity (import or export of electricity between India and its neighbouring countries) between India and Nepal and between India and Bhutan has been taking place for more than fifty years. The cross border trade with Bangladesh and Myanmar was respectively started in the year 2013 and year 2017.

The Cross Border Trade of electricity has mainly been taking place under bilateral Memorandum of Understanding/ Power Trade Agreement. The South Asian Association for Regional Cooperation (SAARC) countries envisaged the need for cross border electricity cooperation and signed the SAARC Framework Agreement for Energy Cooperation on 27.11.2014, recognizing the importance of electricity in promoting economic growth and improving the quality of life in the region. In order to facilitate and promote cross border trade of electricity with greater transparency, consistency and predictability in regulatory approaches across jurisdictions and minimize perception of regulatory risks, the Guidelines on Cross Border Trade of Electricity had been prepared by the Inter-Ministerial Working Group in consultation with various stakeholders.

The Ministry of Power (MOP) issued the Guidelines on Cross Border Trade of Electricity on 5.12.2016, which was subsequently substituted by the ‘Guidelines for Import/Export (Cross Border) of Electricity-2018’ issued on 18.12.2018, to promote cross border trade of electricity with neighbouring countries. Following the guidelines, the Central Electricity Regulatory Commission issued the CERC (Cross Border Trade of Electricity) Regulations, 2019 on 8.03.2019. The Central Electricity Authority (CEA) issued ‘Draft Conduct of Business Rules of the Designated Authority’ on 25.04.2019 for facilitating the Cross Border Trade of Electricity. In continuation to the draft business rules, on 21.02.2021, CEA notified the ‘Procedure for Approval and Facilitating Import/Export (Cross Border) of Electricity by the Designated Authority’.

Under the CERC (Cross Border Trade of Electricity) Regulations 2019, the sale and purchase of electricity between India and the neighbouring countries is allowed through mutual agreements between the local entities and the entities of the neighboring countries, through bilateral agreements between two countries, bidding route or through mutual agreements between entities. Any Indian trader, after obtaining approval from Designated Authority, can trade in Indian Power Exchanges on behalf of any Entity of neighbouring country complying with these regulations.

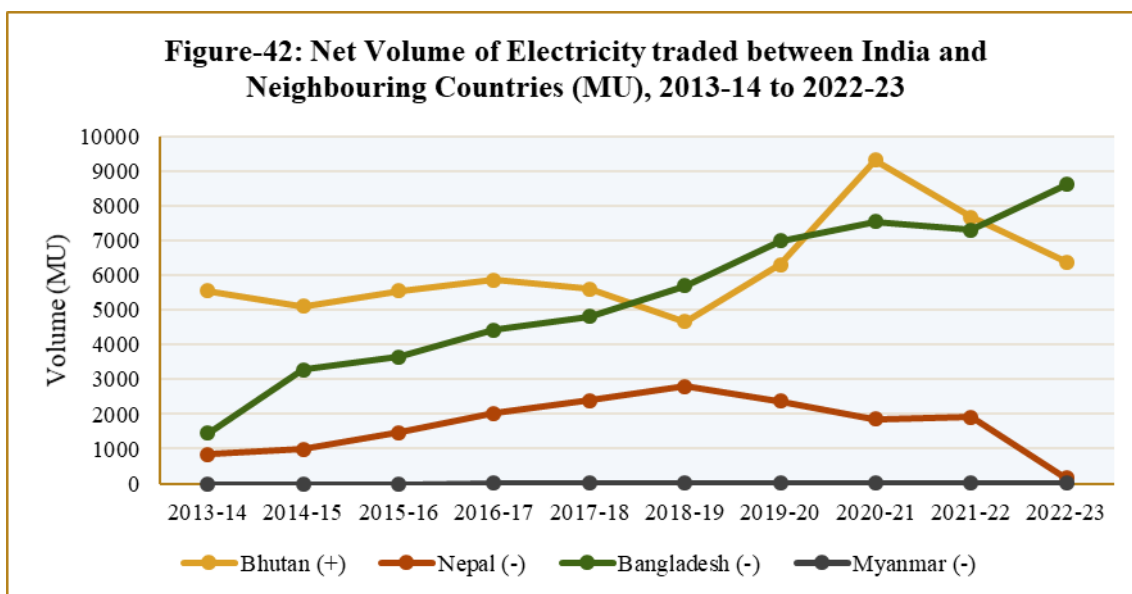

2. Cross Border Trade of Electricity between India and its Neighbouring Countries

Presently, India is a net exporter of electricity to Nepal, Bangladesh, and Myanmar, while India is a net importer of electricity from Bhutan. Table-36 and Figure-42 below provides the details on Cross Border Trade of Electricity between India and its neighbouring countries during the period from 2013-14 to 2022-23. From the table, it can be observed that India was a net importer of electricity from 2013-14 to 2015-16, and became a net exporter of electricity from 2016-17 onwards.

Table-36: Cross Border Trade of Electricity between India and its Neighbouring Countries (MU), 2013-14 to 2022-23

Year	Bhutan (+)	Nepal (-)	Bangladesh (-)	Myanmar (-)	Net Export/Import by India
2013-14	5555.18	840.37	1448.19	0.00	3266.62
2014-15	5109.48	997.17	3271.89	0.00	840.42
2015-16	5555.07	1469.59	3654.4	0.00	431.08
2016-17	5863.58	2021.21	4419.61	3.23	-580.47
2017-18	5611.14	2388.96	4808.83	5.07	-1591.72
2018-19	4657.07	2798.84	5690.31	6.67	-3838.75
2019-20	6310.73	2373.06	6987.94	8.61	-3058.88
2020-21	9318.17	1865.05	7551.99	9.24	-108.11
2021-22	7670.34	1921.09	7301.74	8.8	-1561.29
2022-23	6379.95	158.05	8622.14	9.8	-2410.04

3. Cross Border Electricity Trade of Electricity through Power Exchanges

The Cross Border Electricity Trade of Electricity was commenced in the Day Ahead Market of IEX in 2021-22. The trade with Nepal commenced on 17.04.2021, whereas the trade with Bhutan commenced on 01.01.2022. Table-37 below presents the details of cross-border trade with Nepal and Bhutan through power exchanges.

Table-37: Cross Border Trade of Electricity at IEX, 2021-22 to 2022-23

Year	Nepal				Bhutan			
	Buy		Sell		Buy		Sell	
	Volume Traded	Weighted Average Price	Volume Traded	Weighted Average Price	Volume Traded	Weighted Average Price	Volume Traded	Weighted Average Price
	(MU)	(₹/kWh)	(MU)	(₹/kWh)	(MU)	(₹/kWh)	(MU)	(₹/kWh)
2021-22	785.84	3.59	32.04	3.20	240.11	2.89	-	-
2022-23	1035.69	5.95	1357.77	5.14	318.84	4.39	-	-
