	NAME OF POWER STATION :			FORM-2		
	Year ending March	2000-01	2001-02	2002-03	2003-04	
1	NORMATIVE PARAMETERS					
	(AS NOTIFIED BY CERC):					
	Target Availability					
	Normative PLF					
	Auxiliary consumption (%)					
	Station Heat Rate KCal/KWh					
	Hours of operation at Target Availability					
	Hours of operation at Target PLF					
	Sp. Oil consumption (ml/KWh)					
	O & M Charges (% of CC for plants less than 5 years of	old)				
	(Based on actuals for plants more than 5 years					
	Coal stock +expense in months for Working Capital (V	VC)				
	Oil stock in months for WC					
	Spares stock for WC as % of O&M					
	Recievables in Months for WC					
	Rate of Return on Equity (%)					
2	ENERGY GENERATION					
	Projected Availability					
	ACTUAL/ESTIMATED PLF					
	Energy Generated					
	Energy Sold					
				(PETITIONER)
