Initial Spares

17. The Commission vide order dated 29.1.2022 in Petition No. 688/TT/2020 had allowed the additional Initial Spares of ₹34.66 lakh as part of the combined capital cost as on 1.4.2019 in line with the APTEL's judgement dated 14.9.2019 in Appeal No. 74 of 2017. Initial Spares allowed for the 2014-19 trued-up period were on the basis of the cost of the individual assets. The transmission assets covered in the transmission project were combined during the 2019-24 tariff period. Therefore, in the instant order, the Initial Spares are allowed on the basis of the overall project cost as per APTEL's judgement dated 14.9.2019 in Appeal No. 74 of 2017.

18. Accordingly, Initial Spares allowed in the 2019-24 tariff period on the basis of the Combined Asset are as follows:

(₹ in lakh)						
Assets	Plant & Machinery cost considered as on cut-off date	Initial Spares claimed	Norms as per the 2019 Tariff Regulations	Initial spares allowable as per the 2019 Tariff Regulations	Initial spares allowed during 2019-24 period	Initial Spares allowed for Combined Asset

**Additional Initial Spares of ₹34.66 lakh (₹230.93 lakh - ₹196.27 lakh) are allowed for Sub-station.

19. Thus, in line with the APTEL's judgement dated 14.9.2019 in Appeal No. 74 of 2017, the additional Initial Spares of ₹34.66 lakh (₹2.08 + ₹32.58) are admissible.

Total	7690.10	34.66	7724.76

Effective Date of Commercial Operation (“E-COD”)

20. The Petitioner has claimed E-COD in respect of the Combined Asset as 3.7.2014. Based on the trued-up admitted capital cost and actual COD of the individual transmission assets, E-COD of the Combined Asset works out as follows:

Particulars	Actual COD	Admitted Capital Cost as on 31.3.2019	Weight of the cost (in %)	Number of Days from last COD	Weighted Days
Asset-A1	1.4.2014	846.51	10.96	239	26.19
Asset-A2	1.4.2014	1146.31	14.84	239	35.47
Asset-A3	26.7.2014	1572.43	20.36	123	25.04
Asset-B	2.8.2014	1469.28	19.02	116	22.06
Asset-C1	1.8.2014	1154.77	14.95	117	17.49
Asset-C2	26.11.2014	816.46	10.57	0	0.00
Asset-C3	30.4.2014	719.00	9.31	210	19.55
		7724.76	100	1044	145.79
E-COD (Latest COD – Total weighted days) = 3.7.2014					

21. E-COD is used to determine the lapsed life of the project as a whole, which works out as (4) four years as on 1.4.2019 (i.e., the number of completed years as on 1.4.2019 from E-COD).

Weighted Average Life (“WAL”)

22. The life as defined in Regulation 33 of the 2019 Tariff Regulations has been considered for the determination of WAL. The Combined Asset may have multiple elements such as land, building, transmission line, Sub-station, and PLCC, and each element may have a different span of life. Therefore, the concept of WAL has been used as the useful life of the transmission system as a whole.

23. WAL has been determined based on the admitted capital cost of individual elements under the transmission system as on 31.3.2019 and their respective life as stipulated in the 2019 Tariff Regulations. Accordingly, WAL in respect of the Combined Asset has been worked out as 25 years as follows:

Particulars	Combined Asset Cost (₹ in lakh) (1)	Life as per 2019 Tariff Regulation (Years) (2)	Weighted Cost (3)=(1)x(2)	Weighted Average Life of Asset (in years) (4)=(3)/(1)
Building	430.52	25	10763.00	
Sub-station	7193.31	25	179832.75	
IT Equipment and Software	100.93	7	672.87	
	7724.76		191268.62	24.76 (rounded off to 25 years)

24. WAL as on 1.4.2019, as determined above, is applicable prospectively (i.e., for the 2019-24 tariff period onwards), and no retrospective adjustment of depreciation in the previous tariff period is required to be done. As discussed in the preceding paragraphs, the E-COD of the Combined Asset is 3.7.2014, and the lapsed life of the project as a whole works out as four years as on 1.4.2019 (i.e., the number of completed years as on 1.4.2019 from E-COD). Accordingly, WAL has been used to determine the remaining useful life as on 31.3.2019 to be 21 years.

25. We have considered the submissions of the Petitioner. The capital cost allowed is as follows:

(₹ in lakh)				
Combined Capital Cost as on 31.3.2019	Additional Initial Spares allowed	Combined Capital Cost as on 1.4.2019	ACE during 2019-24 tariff block	Capital cost as on 31.3.2024
7690.10	34.66	7724.76	No ACE	7724.76

Debt Equity Ratio

26. The details of the debt-equity ratio considered and allowed under Regulation 18 of the 2019 Tariff Regulations for computation of tariff of the Combined Asset during the 2019-24 tariff period is as follows:

Funding	Capital cost as on 1.4.2019		Capital cost as on 31.3.2024

Total	1763.06	100.00	1763.06	100.00

Depreciation

27. The depreciation has been worked out considering the admitted capital expenditure as on 1.4.2019 and thereafter up to 31.3.2024. The Weighted Average Rate of Depreciation (WAROD), has been worked out and placed as Annexure-I, for the Combined Asset as per the rates of depreciation specified in Regulation 33 of the 2019 Tariff Regulations.

28. The depreciation allowed for the Combined Asset is as follows:

Return on Equity (RoE)

32. The Petitioner has submitted that its Income Tax assessment has been completed, and the assessment orders have been issued by the Income Tax Department for the FY 2019-20 and FY 2020-21, and the income has been assessed under MAT [115JB of the Income Tax Act, 1961 (IT Act, 1961)]. The Petitioner has further submitted that the Income Tax Returns (ITR) have been filed for FY 2021-22, FY 2022-23, and FY 2023-24 (submitted in Petition No. 401/TT/2024).

33. The Petitioner has also submitted that it is liable to pay income tax at MAT rates (17.472, i.e., 15% Income Tax and Surcharge on Income Tax=4% Health and Education Cess on Income Tax and Surcharge) and has claimed the following effective tax rates for the 2019-24 tariff period:

Year	Claimed effective tax rate (in %)	Grossed up RoE (in %) [(Base Rate)/(1-t)]
2019-20	17.472	18.782
2020-21	17.472	18.782
2021-22	17.472	18.782
2022-23	17.472	18.782
2023-24	17.472	18.782

34. MPPMCL has submitted that a prudence check of the data and forms, including documents for truing up the tariff for the 2019-24 period, may be done by seeking additional information as per the requirements since the Petitioner has not placed on record the assessment orders for the FY 2019-20 and FY 2020-21, while assessment orders for the FY 2021-22 and FY 2022-23 have not yet been finalised by the Income Tax Department.

35. We have considered the Petitioner's and MPPMCL's submissions and have also gone through the record. We noted that the entities covered under the MAT regime are paying Income Tax as per the MAT rates notified for the respective financial year under the IT Act, 1961, which is levied on the book profit of the entity computed as per Section 115 JB of the IT Act, 1961. Section 115 JB (2) defines book profit as net profit in the statement of Profit and Loss prepared in accordance with Schedule-II of the Companies Act, 2013, subject to some additions and deductions as mentioned in the IT Act, 1961. Since the Petitioner has been paying the MAT rates of the respective financial year, the notified MAT rates for the respective financial year shall be considered as an effective tax rate for the purpose of grossing up the RoE for truing up of the 2019-24 tariff period in terms of the provisions of the 2019 Tariff Regulations. Interest imposed on any additional income tax demand as per the Assessment Order of the Income Tax Authorities shall be considered on the actual payment. However, the penalty (for default on the part of the Assessee), if any, imposed shall not be taken into account for the purpose of grossing up of the rate of RoE. Any under-recovery or over-recovery of the grossed-up rates on the RoE after truing up shall be recovered or refunded to the beneficiaries or the long-term customers, as the case may be on a year-to-year basis. Therefore, the following effective tax rate based on the MAT rates notified by the Income Tax Department are considered for the purpose of grossing up the rate of RoE:

Year	Notified MAT rates (in %) (inclusive of surcharge & cess)	Effective tax (in %)	Base rate of RoE (in %)	Grossed-up RoE [(Base Rate)/(1-t)] (in%)
2019-20	17.472	17.472	15.50	18.782
2020-21	17.472	17.472	15.50	18.782
2021-22	17.472	17.472	15.50	18.782
2022-23	17.472	17.472	15.50	18.782
2023-24	17.472	17.472	15.50	18.782
