21. The Petitioner has further submitted that it is liable to pay the income tax at MAT rates (17.472, i.e., 15% Income Tax + 12% Surcharge on Income Tax + 4% Health and Education Cess on Income Tax and Surcharge) and has claimed the following effective tax rates for the 2019-24 tariff period:

Year	Claimed effective tax rate (in %)	Grossed-up RoE (in %) [(Base Rate)/(1-t)]
2019-20	17.472	18.782
2020-21	17.472	18.782
2021-22	17.472	18.782
2022-23	17.472	18.782
2023-24	17.472	18.782

22. MPPMCL has submitted that the Petitioner has grossed up RoE on the basis of actual taxes paid during 2019-20, 2020-21, 2021-22 and 2022-23. For 2023-24, RoE has been grossed up on the basis of applicable MAT rate, surcharge and cess. The

Petitioner has not placed on record the assessment orders, and also, not claimed grossed-up RoE on the basis of actual taxes paid for the year 2023-24.

23. In response, the Petitioner has submitted that MPPMCL is repeatedly raising this issue. The Petitioner in Petition Nos. 401/TT/2024, 25/TT/2025, 26/TT/2025 and various other Petitions have dealt with this submission of MPPMCL and requested to allow it to adopt the same submission in the present Petition.

24. We have considered the Petitioner's submissions and MPPMCL's submissions. We note that the entities covered under the MAT regime are paying Income Tax as per the MAT rates notified for the respective financial year under the IT Act, 1961, which is levied on the book profit of the entity computed as per Section 115 JB of the IT Act, 1961. Section 115 JB (2) defines book profit as net profit in the Statement of Profit and Loss prepared in accordance with Schedule II of the Companies Act, 2013 subject to some additions and deductions as mentioned in the IT Act, 1961. Since the Petitioner has been paying the MAT rates of the respective financial year, the notified MAT rates for the respective financial year shall be considered as an effective tax rate for the purpose of grossing up the RoE for truing up of the 2019-24 tariff period in terms of the provisions of the 2019 Tariff Regulations. Interest imposed on any additional income tax demand as per the Assessment Order of the Income Tax Authorities shall be considered on the actual payment. However, the penalty (for default on the part of the Assessee), if any, imposed shall not be taken into account for the purpose of grossing up the rate of RoE. Any under-recovery or over-recovery of the grossed-up rates on the RoE after truing up, shall be recovered or refunded to the beneficiaries or the long-term customers, as the case may be, on a year-to-year basis.
